IMPROVEMENT OF GRAND CANAL IN SHANTUNG

shower bouquet of white roses and
sweet peas.

Her maid of honor wore coral volle, the waters of many of these stream pass into the canal, which was built through districts where formerly lakes afforded reservoirs for the flood waters. Of recent years the canal has been greatly neglected. In places now the water is not more than six inches deep in dry times and the banks have been badly damaged by high water. Consequently the government is un-able to derive the tolls which is should have from such an important water-

into neglect, and the neighboring pop-ulation suffers much from flood and Plans have been under consideration Tuesday morning at 11 o'clock. The session was held in the rooms of the common pleas court and the trial of the divorce case of Johanna Paracenti of Norwich against her husband, John Paracenti of New York was taken up. This is the third time the case has been in court. Mrs. Paracenti charges her husband with a statutory offense. Mrs. Paracenti testified she married her husband on June 23, 1835, but has not lived with him since Nov. 2, 1998. She lives at 21 Thames street and many years for the reclamation milion dolars gold. The expense of this improvement would, in the opinion of exports, before than met by the value of the government land actually reclaimed. Furthermore the increased value of the private lands subject to flood would be very great and an improvement tax could be justly levied on these. With the waterway in perfect repairs, the tolls would be very large throughout the

way. Furthermore much of the ter-ritory adjoining the canal has fallen

money for the initial cost of the work.
